(Member American Association of Nurserymen)

~~HARDY PHLOX~~ Baby Plants

During each spring season we ship to many parts of the country large numbers of Baby Phlox for lining out, and judging from the strong demand from Nurserymen and Florists to whom we previously have sold, we believe that we are satisfying our customers in this line.

The season of delivery begins about March 15th and closes not later than May 10th to 15th. Transplanting to the field should be done as early as soil and weather conditions permit.

Baby Phlox being in active growth when shipped, definite instruction should be given as to date of shipment. This may be stated on the order or if preferred, shipping instructions may follow.

	25 & up Per 100	100 & up Per 100	300 & up Per 100
